Agile Methodologies

Project Management  
Team Collaboration  
Business Acumen  
Problem-Solving

### KEY FRONT END DEVELOPMENT PROJECTS

#### Gulshan Radio, React | Design | Front-End Development

[GitHub](#) | [Website](#)

- Built a dynamic, single-page app (SPA) using React by designing and coding a radio station website that seamlessly integrates with their brand identity.
- Crafted an intuitive user interface fully optimised for performance and responsiveness across devices to deliver an engaging online experience for listeners.
- Demonstrated proficiency in front-end development by translating conceptual designs into functional and user-friendly interfaces.

#### FakeStore, React | APIs | Front-End Development

[GitHub](#) | [Website](#)

- Engineered a web store application through front-end development and collaboration with design/UX professionals.
- Implemented a fully functional e-commerce experience by building a cart and contact modal for users.

#### Rick and Morty, React | APIs | Front-End Development

[GitHub](#) | [Website](#)

- Explored context and API integration in React by formulating a future-proof web application using API calls.
- Steered character management by enabling users to browse episodes, select characters, and save favourites.

#### Portfolio Website, React | Web - Design | Front-End Development

[GitHub](#) | [Website](#)

- Transformed design and CSS skills by creating a visually appealing and user-friendly portfolio website.
- Leveraged hands-on experience with design principles to create a compelling online presence.

### CAREER SUMMARY

#### Front End Developer Internship | March 2024 – Present

Nimble, Remote

##### Duties and Responsibilities:

- Spearheading collaborative efforts with a team of adept front-end developers to gain immersive experience in web development dynamics.
- Innovating user experiences by leveraging camera capabilities and delving into accessibility intricacies, garnering hands-on expertise and industry-best insights across projects.

##### Accomplishments:

- Expanded skill repertoire swiftly during internship tenure, adeptly mastering diverse libraries and frameworks to proficiently construct intricate components and mini applications.
- Crafted enhanced user experiences by developing Proof-of-Concepts (POCs) for the Nimble app, enabling receipt capture via front and back cameras, integrating file upload functionality, and currently exploring geolocation integration for future feature enhancement.

## Web Developer | July 2023 – Present

Freelance, Remote

### Duties and Responsibilities:

- Developing responsive websites and web applications using modern front-end and back-end technologies.
- Conducting thorough testing and debugging to ensure functionality and usability of websites and web applications.

### Accomplishments:

- Orchestrated collaborative efforts with the development team to diagnose and discern optimal web design alternatives and industry best practices.
- Independently spearheaded projects to perpetually augment expertise and refine existing skill sets.

## Locum Pharmacist | June 2021 – Present

Self-Employed, United Kingdom

### Duties and Responsibilities:

- Operating as a self-employed Locum Pharmacist across diverse multi-chain pharmacy settings.
- Administer control over provision of vital services, including blood pressure assessments, flu vaccinations, and NMS (New Medicines Services).

### Accomplishments:

- Streamlined pharmaceutical operations by smoothly transitioning into the role and demonstrating adept personnel management skills to meet all company requirements.
- Traverse nationwide, extending services to communities facing acute pharmacist shortages, spanning regions like Scotland and Wales.

## Pharmacist Manager | Aug 2021 - June 2022

Jhoots Pharmacy, Castle Bromwich, Birmingham

### Duties and Responsibilities:

- Oversaw operations at a flagship branch for a multi-chain pharmacy company.
- Led revenue augmentation by introducing lateral flow testing service and promoting the minor ailment scheme to the local community.

### Accomplishments:

- Achieved a 20% surge in shop floor sales and elevated prescription items count by 30% in a 4-month timeframe.
- Executed 60 flu vaccinations within initial 3 days of service commencement, resulting in an added £720 in revenue.

## NHS Interpreter (Tri-Lingual) | Aug 2015 - Aug 2019

Multiple Hospitals- West Midlands

### Duties and Responsibilities:

- Mobilised across the West Midlands, offering multilingual assistance and support in English, Hindi, and Punjabi to patients facing significant language barriers hindering access to quality healthcare.
- Facilitated seamless communication between healthcare professionals including consultants, doctors, nurses, and patients, swiftly interpreting both written and verbal information in real-time.

### Accomplishments:

- Acted as a vital intermediary, ensuring accurate transmission of information between healthcare professionals and patients, enabling effective dialogue and understanding within seconds.

---
